The Alive Flame

Hello to anyone who's reading this

I'm finally going to write the Alive Flame, before it was there in a form of an Omegle conversation about it but since I still feel like she wouldn't have wanted me to do that

Just because I was too lazy to actually write down what happens in the story doesn't mean that I should instead of copy pasting the explanation that I've given her because of my motivation and excitement of her reactions and questions

also if you're reading this (which has an INCREDIBLY low probability of happening but still) I'm going to miss you
